

EXPERIENCE

- **Hopsworks** Stockholm, Sweden
Lead Frontend Engineer Feb 2022 – Present
 - **Hopsworks-UI**: Redesigned the Web interface for Hopsworks AI Lakehouse, achieving a 2x faster page load time. Established robust End-to-End and unit testing practices, significantly enhancing product quality and feature delivery.
 - **File Browser**: Developed a File Browser with a command-line interface, boosting customer satisfaction through enhanced usability.
 - **Mentorship**: Mentored junior and mid-level developers in JavaScript and React best practices, improving code quality and team productivity.
 - **Team Leadership**: Led hiring for frontend roles, growing a high-performing team of 7-8 members. Facilitated code reviews and project planning sessions, ensuring timely feature delivery and continuous improvement.
 - **Quartz Component Library**: Built and maintained a reusable React component library, enabling faster development of complex UIs.
- **Snow Software** Stockholm, Sweden
Senior Software Engineer Aug 2020 – Feb 2022
 - **Web Service Template**: Created a React-based app template to streamline development across teams. Integrated dynamic SPA route loading and backend-driven navigation.
 - **Micro Frontends**: Migrated internal applications to a micro-frontend architecture, enhancing scalability and team autonomy in development and deployment.
- **Swedish Startup Recruitment** Stockholm, Sweden
Software Engineer Jan 2019 – Jul 2020
 - **Teemyco**: Developed an Electron desktop app for a virtual office platform.
 - **GydEd**: Built a web app for school managers to track student well-being and activities.
 - **Qasa**: Enhanced a multi-country rental web app for landlords and tenants.
 - **Leeroy**: Developed a management dashboard for restaurant insights across multiple branches.
- **8Bitiz** Istanbul, Turkey
Software Engineer Feb 2018 – Jan 2019
 - **Pasabahce**: Developed a mobile app for product listing and sharing using React Native. Migrated the codebase from Swift to React Native.
 - **8Bitiz Website**: Created a corporate animated website, migrating from WordPress to React. Stack: ReasonML, React, Node.
- **Abgostaran** Tehran, Iran
Frontend Developer Jun 2017 – Feb 2018
 - **Report Management System**: Implemented a customizable form-generator tool, accelerating form creation.
 - **Management Insights App**: Designed and developed a mobile app visualizing data using Recharts.
- **IranTIP** Tehran, Iran
Frontend Developer Oct 2016 – Jun 2017
 - **IranTIP Web App**: Developed a platform connecting investors and startups using React and Webpack. Visualized data with Recharts.
