
EXPERIENCE

• Hopsworks

Stockholm, Sweden

*Lead Frontend Engineer**Feb 2022 - Present*

- **Hopsworks-UI:** TensorFlow is an open source software library for numerical computation using data flow graphs; primarily used for training deep learning models. Worked on APIs and performance for training models on Tensor Processing Units (TPU).
- **Quartz Component Library:** Apache Beam is a unified model for defining both batch and streaming data-parallel processing pipelines, as well as a set of language-specific SDKs for constructing pipelines and runners.

• Snow Software

Stockholm, Sweden

*Senior Software Engineer**Aug 2020 - Feb 2022*

- **Web Service Template:** React based app Template to setup a web app used by different teams across the company to facilitate development.
- **Portal:** Dashboard for managing and monitoring the company's internal applications. Implemented dynamic loading of SPA routes and navigation items using backend APIs.
- **Design System Library - Table:** Implemented a feature-rich and customizable Table component using ReactTable in the internal design system library.
- **Micro Frontends:** Migrated existing internal applications to micro frontends. This was important for the company to be able to scale the applications and give the teams full control over their development and deployment.
- **Workshops:** Hold internal workshops and provide React based training to the team.
- **Documentation:** Service for integrating software documents written by technical writers with internal Product applications. Built an internal component library to reuse same components across different applications.

• Swedish Startup Recruitment

Stockholm, Sweden

*Software Engineer**Jan. 2019 - July. 2020*

- **Leeroy AB:** Management dashboard used by restaurant managers which helped them tracking business insights across different restaurant branches. stack: React, D3, Node.js, GraphQL, Jest.
- **Qasa AB:** Qasa Web App used by landlords and tenants for renting home, branded for 3 different countries. stack: React, Node.js, GraphQL, Cypress.
- **Gyde:** Full Web App for school managers to track students wellbeing and activities. stack: React, Hasura, Node.js, GraphQL.
- **Teemyco:** Electron Desktop App Registration and Login System for Teemyco virtual office. stack: React, Firebase, GCP.

• 8Bitiz

Stanbul, Turkey

*Software Engineer**Feb 2018 - Jan 2019*

- **Pasabahce:** Native Mobile App for Pasabahce for listing, categorizing and sharing products, developed with React Native and PHP. Helped 8bitiz with migration from Swift to ReactNative.
- **8Bitiz Website:** Implemented 8Bitiz corporate animated website. Helped 8bitiz with migration from WordPress to React. Stack: ReasonML, React, Node.
- **Airqoon:** A cost-effective, reliable and easy-to-use hyperlocal air pollution management solution. Building interactive maps for air pollution monitoring. stack: ReactNative, GraphQL, D3.

• Abgostaran

Tehran, Iran

*Frontend Developer**Jun 2017 - Feb 2018*

- **Project report management system:** Implemented a highly customizable and dynamic Form-generator tool to accelerate form generation process. used Vue.js and Sharepoint.
- **Project Insights Mobile App:** Designed and Implemented a mobile app for project management system. Visualizing data in various formats using Recharts. Stack: Expo.

• IranTIP

Tehran, Iran

*Frontend Developer**Oct 2016 - Jun 2017*

- **IranTIP Web App:** IranTIP was a platform for connecting investors and startups. Developed IranTIP's Web app using Webpack, React, ReactRouter, jest. Visualizing data in various formats using Recharts.

PROJECTS

- **QuantSoftware Toolkit:** Open source python library for financial data analysis and machine learning for finance.
- **Github Visualization:** Data Visualization of Git Log data using D3 to analyze project trends over time.
- **Recommendation System:** Music and Movie recommender systems using collaborative filtering on public datasets.
- **Mac Setup:** Book that gives step by step instructions on setting up developer environment on Mac OS.

PROGRAMMING SKILLS

- **Languages:** Javascript, Python, Scala, Java, SQL, Clojure **Technologies:** React, D3, Docker, Express, GCE

EDUCATION

- **Sharif University of Technology** Tehran, Iran
Master of Computer Networks; GPA: 3.63 (18.15/20.0) *Aug. 2014 – July. 2016*
- **Amirkabir University of Technology** Tehran, Iran
Bachelor of Software Engineering; GPA: 3.46 (17.33/20.0) *Aug. 2009 – July. 2014*
